1981	685776	688143	690524	693143	IH Cub Cadet production ended and the line sold to Cub Cadet Corp. 6/81							

THE FINAL S/N OF THE IH CUB CADETS BY MODEL: 482, 688742 582, 694233 582S, 694101 682, 694243 782, 694248 982, 688712

NOTE 1. In 1960 there were: 3 experimental models built by the Engineering Center, 10 prototypes built at Louisville Works and believed by the author to be numbered 401 through 410 (409 exists), and a limited production of 25 test units beginning with S/N 501. After the 25 test units, production continued at Louisville Works on a limited basis to test manufacturing equipment & procedures, and to establish piecework prices. However shipments would not start until testing was completed, expected to be in Jan. 1961. Release for shipment was approved by TCR#49-A dated 3 Jan 1961. Production began in Jan 61.

NOTE 2. The author believes the numbers for Feb & Mar 77, highlighted in yellow, are either reversed, or contain typographical errors
