

# Service Bulletin

CODE No. CC-051

DATE January 4, 1984

SUBJECT Cadet Adapting

Packages and Mule Drive

Belts

(Revised May 6, 1985)

(Replaces bulletin originally  
issued as CCS-011)

The attached page lists the various packages and parts required when installing the "C" series mowers and "B" series rotary tillers to older wide-frame Cub Cadet Tractors (serial number 400,000 & above). As of now, there are no packages available to adapt these attachments to the old narrow-frame Cub Cadet Tractors (serial number 400,000 & below).

This can be used as a quick reference chart and should be made available to your sales and service personnel.

Snow thrower models H-42 and H-48 can not be installed on older Cub Cadet Tractors. If you have a request for a snow thrower for an older Cub Cadet, it will be necessary to locate a "QA" series snow thrower, or the 45" Snow Thrower can be installed on wide frame Cub Cadet Tractors ( serial Numbers 400,000 and above).
