

The Involve Audio Kaida (Little Dragon) ESL675-8 Reference Monitor provides uncompromising precision and accuracy to pull out all the details in your mix. The Dual 8" sub and Wide Dispersion Electrostatic Loudspeaker work seamlessly together to provide extremely low group delay surpassing that of traditional speakers.

Configuration and Type

2-WAY Active ESL+Cone Hybrid

ESL (Electrostatic Loudspeaker)

Wide Dispersion 675cm² ESL

Frequency Response - 250Hz-20kHz

Woofer

Internal tuned dual 8"

Frequency Response - 24Hz-250Hz

Inputs

Balanced, Unbalanced, Speaker Level
(stepped down)

Power

Dual independent 100W Amplifiers
(woofer, ESL)

Frequency Response

24Hz-20kHz \pm 3dB

Max Peak SPL

107 dB

Level Adjustments

250hz Low Shelf (-6dB to +3dB)

1kHz High Shelf (-3.5dB to +3.5dB)

80Hz (-6dB to +6dB)

System level (-10dB to +5dB)

Intelligent Sound

Most woofer designs can't keep up with the high accuracy and precision of electrostatic speakers. Involve has developed a woofer motor design which utilises an internal dual configuration to give fast response, high stability and enough kick to fill your studio or home.

Our in-house developed Wide Dispersion ESL's are advanced Electrostatic Drivers that deliver incredibly rich and detailed sound. Offering the benefits of high precision and accuracy of traditional electrostatic drivers and near field monitors with the added benefit of wide dispersion allowing a large group in a studio session to sit back and enjoy your mix.
